TITUS NURSERY COMPANY

(The Waynesboro Nurseries) WAYNESBORO, VA

One of our fields consisting of 350,000 young Peach trees.

FRUIT TREES, ORNAMENTALS AND LANDSCAPE SERVICE of the highest quality on the Golden Rule Terms. The manner in which our old customers have stuck to us—many of them ever since we started in business—and the phenomenal growth that we have enjoyed assure us that you have been pleased with our stock and service. We solicit your continued business on these terms. To you who have not planted or seen our stock, we invite you to give us a trial.

OUR STOCK. As a rule we quote and sell only standard grades. We sell commercial planters and use in large Landscape Developments larger grades of stock, but for the benefit of those who are willing to use smaller grades and wait for the growth, we offer "The Mail Order Grade," which is just as healthy, guaranteed to be true to name and delivered in good condition. In most cases we believe it advisable to plant the larger grades, but if you prefer the smaller, you will find the trees and plants used in our "Mail Order Grade" especially well rooted, developed, and full of life.

We pay transportation charges on all of our Nursery Stock and guarantee it to be delivered in good condition and to please you. In ordering from us you know just what first class, true to name Nursery Stock is going to cost you, delivered to your Post Office Box or nearest Railroad Point.

After guaranteeing our trees and plants to be delivered in good condition, we further agree to replace at one-half price any that fail to grow the first season.

TERMS. For cash in full with order, we allow 5 per cent discount, or a liberal premium in free stock. No discount is allowed unless cash in full accompanies order, but orders are accepted and booked when 25 per cent of the amount of the order accompanies the same.

VARIETIES AND QUANTITIES. In case you do not find listed the variety, quantity or grade desired, write us for further information and our Descriptive Catalog.

MAKING UP ORDERS. Do not fail to give sizes, quantities, and varieties wanted. Also give Shipping Point, if different from Post Office, and approximately when you would like your stock shipped. **Six at dozen rate; 50 at 100 rate; 300 at 1000 rate.**

Fruit Trees

Planters in various communities demand different sizes and varieties, so we offer Apple in a large assortment of varieties and our trees in six different sizes. All of our stock is clean, healthy and true to name, bearing a State Inspection Certificate. We are especially careful in keeping our stock true to name. You should be equally as careful in knowing that the orchard you plant is true to name. Our list of varieties is carefully worked out so that either a commercial or home orchard planter can make a selection suitable for any requirement. We suggest the following varieties as a selection for home orchards, furnishing fruit from the earliest to the latest: Yellow Transparent, Early Harvest, Duchess, Sweet Bough, Smoke House, Grimes Golden, Delicious and Lowry.

Richared, the Delicious Supreme.

NOTE: Albemarle Pippin, Williams Red and York 5c above Standard Varieties. Lowry and Red Rome 10c extra.

VARIETIES

Albemarle Pippin. Yellowish green. Winter.
Ben Davis. Well known red winter Apple. Poor quality but popular for export market.
Black Ben. Resembles Ben Davis, but much darker in color and same quality.
Bonum. Red fall Apple, medium size, excellent quality for export.
Delicious. Red and green striped. One of the best known winter varieties. Excellent quality.
Duchess. Red summer Apple. Popular in home orchards as well as being a commercial variety.
Early Harvest. Well known early greenish yellow Apple. Good in its season.
Fall Pippin. Yellow. An old-time fall Apple having a place in every home orchard.
Grimes Golden. The most popular late fall and early winter yellow Apple.
Hyslop Crab. Excellent for jellies.
Jonathan. A late fall, solid red export apple. Much in demand for exporting.
King David. Another medium-size red late fall Apple.
Maiden Blush. An old favorite family variety. August.
M. B. Twing. Large dark red. Long keeper. Good quality. Rather shy bearer.
Mother. Red late blooming export variety. September.
McIntosh. Late fall and winter red Apple. Popular in New York and the New England States.
Northern Spy. An old favorite in the home orchard. Late fall. Red striped Apple.
N. W. Greening. Large winter green apple.
Paragon. Resembles Black Twig but is more abundant bearer.

Rome Beauty. A well-known striped winter Apple. Very near sweet.

Smoke House. One of our best-known summer Apples. Splendid home variety.

Stayman. One of our most popular commercial Apples of the winter variety. Largered, green striped.

Summer Rambo. Undoubtedly one of the best summer varieties of its season. Large, striped, excellent quality. Ripens in August.

Sweet Bough. Summer sweet Apple. Good quality. Ripens in July.

Sweet Paradise. Late fall green, sweet Apple. Good quality.

Wealthy. Fall red Apple. Planted chiefly for export.

Williams Red. Another popular export Apple. Early fall, medium size and red.

Winesap. Standard commercial variety. Medium size. Solid red.

Yellow Transparent. The earliest Apple on our list. A very popular early Apple. Medium size and excellent for cooking purposes.

York Imperial. The most extensively planted Apple in Virginia for commercial purposes. Greenish background, red cheek, good quality and keeper. In demand for both local and foreign markets.

NEW VARIETIES OF APPLE

Blartayman (The New Solid Red Stayman). A solid red Stayman. Sport of the well-known Stayman, having all the good qualities of the Common Stayman and the big advantage of being solid red in color instead of pale striped greenish coloring found in the Common Stayman. Write for further information.

Lowry. Beautiful dark red winter Apple, enjoying the reputation of selling for the highest price of any Apple grown in Virginia. It sells for \$1.00 to \$2.00 more per barrel than standard varieties. Always in demand both as a home variety and a commercial Apple. The Lowry should be in every orchard, whether home or commercial. Trees 10c above Standard Varieties.

Richared Delicious. A "Super" Delicious. An Apple with all the good qualities of the Common Delicious: Same size, same shape, same flavor, same texture and same ripening period, but the Richared Delicious colors two to three weeks earlier and colors solid red without trace or sign of stripe, even into the stem and blossom ends. It can be picked "hard ripe" with full color. It has excellent storage qualities and is the most beautiful Apple ever seen. Write for further information.

Prices on the Blartayman and Richared Delicious are as follows:

A Letter from the State of Washington

"On April 2, 1927, I purchased from the Columbia & Okanogan Nursery Company, 10 Richared Delicious (1-year whips) nursery trees. At this time, September 5, 1930, every one of these trees has two or more apples on it. One of the trees has a crop of 31 apples, every one a deep beautiful solid dark red—every one grades Extra Fancy for color, and they could all have been picked with good Extra Fancy color the latter part of August.

"On the same date, April 2, 1927, I also purchased from the Columbia & Okanogan Nursery Company, 29 common or red Delicious, and not one of them had an apple on this season. Last month I budded them all over to Richared Delicious. It is a wonderful apple and I am convinced that it not only colors far earlier than the red Delicious, but it also bears earlier—in fact, I have one Richared Delicious tree planted this spring which has one apple on it—full size, solid red.

(Signed) H. M. CROCKER.

Peach

We are located in the heart of the Commercial Peach Belt of Virginia and grow Peach Trees in large quantities. Our soil is well adapted for growing Peach in the nursery row as well as in the orchard, so we have made Peach one of our specialties. Being in the commercial Peach Belt, we have the advantage of studying the varieties in the orchards and know both the good and bad qualities of each variety. As far as possible we have tried to eliminate all varieties not worthy of growing, so while you will find that we do not list as many varieties as some do, you will also find that we have a splendid assortment of the better varieties. You will find that our list covers the wants for both a home and commercial orchard.

Our Peach are budded on old-time seedling variety found growing in the fence corners and briar thickets throughout the Blue Ridge area of Southern Virginia and North Carolina. We find that this small seedling Peach affords us the best of root stock and all of our Peach are grown on this stock.

For your convenience we are listing the Peach in ripening order, so that in making a selection you can have the best varieties ripening from the earliest to the latest. If better description is needed, write for our Descriptive Catalog.

Keiffer Pear.

Pear

Every home orchard and even the small city lot owner tries to grow Pears for home use. Whether your orchard is large or small, we recommend the following varieties:

Early Sweet. Tender, large, sweet. Ripens July.

Bartlett. Well known. Most popular summer Pear. Ripens August.

Garber. Rapid grower, good quality. Splendid where assortment is demanded. Ripens in September.

Kleffer. The most extensively planted Pear. Quality not as good as some, but one of our best canners.

Seekle. Small, sweet, excellent quality. Fine for pickling, canning, or eating from the hand.

Elberta Peach.

Cherry

No fruit has gained as much ground in the past few years as the Cherry. The new process of freezing Cherries, affording fresh fruit from the storage throughout the year, has revolutionized the market. Cherries are now planted commercially. We offer a splendid selection of the most popular sour and sweet varieties which are best suited for home and commercial planters.

Bing. Good dark red sweet. Best shipper.

Black Tartarian. Well known commercial sweet.

Early Richmond. Best known sour.

Governor Wood. Most popular wax variety.

Lambert. Favorite dark purple sweet.

Large Montmorency. Best large red sour.

Napoleon. New wax variety. Yellow, red cheek.

Plum

Plums require little space and are often planted in orchards between Apple trees. We consider the following the most desirable varieties:

Abundance

Burbank

Damson

German Prune

Green Gage

Red June

Wickson

Grape

Grapes require little space and attention. Surely you have a place for a few. The collection we offer will furnish Grapes ripening from the earliest to the latest.

Moore's Early. Best early blue.

Caco. New variety. Considered the best red.

Concord. Most popular blue.

White Niagara. Large perfect bunch. Midseason.

Delaware. Red. Late. Good keeper.

Catawba. Red. Excellent wine Grape.

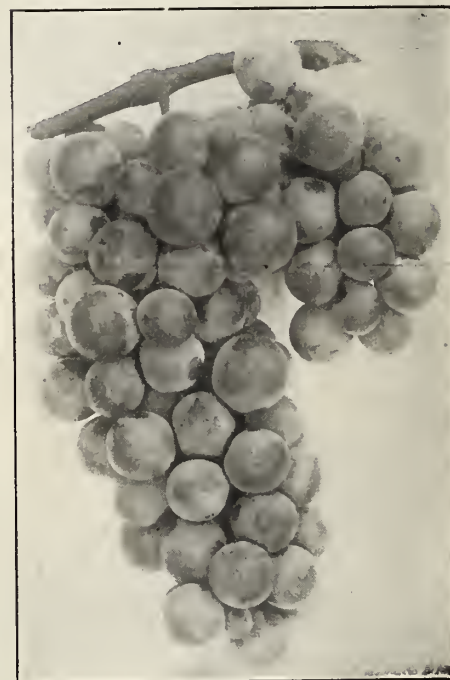

Lutle. New, large, red Grape, unsurpassed in quality.

1-yr. Vines—Mail Order Size—Each 35c; doz. \$3.50.

1-yr. Vines—Mail Order size—3 for \$1.00; \$20.00 per 100.

2-yr. Vines—Each 50c; doz. \$5.00; 100 \$25.00.

2-yr. Vines—3 for \$1.25.

Concord Grapes.

Raspberries and Blackberries

Only a little space is required to grow enough Berries for home use. Small space can be profitably devoted to growing Berries. These small fruits are proving to be a profitable commercial crop.

RASPBERRIES

Cumberland. Best purple.

St. Regis. Best everbearing. Red.

Cuthbert. Well known red.

Plum Farmer. Dependable black.

Per 25, \$2.00; per 100, \$6.00; per 1000, \$45.00.

BLACKBERRIES

Early Harvest. No doubt the best quality for home use. Also profitable commercial variety.

Eldorado. Large, juicy, excellent flavor, but does not yield as well as Early Harvest.

Per 25, \$2.50; per 100, \$7.00; per 1000, \$50.00.

Not less than 25 of any variety sold.

Cumberland Raspberries.

Dewberries

\$4.00 per 100; \$35.00 per 1000.

Strawberries

Our collection of Strawberries will furnish Berries from the earliest to the latest. By adding the Everbearing you can have Berries from early Spring to late Fall. Those who have not seen the Everbearing Strawberry no doubt consider it a novelty, planted only for the name of having a few Berries out of season. If this is the impression you have you are wrong. The Champion Everbearing will bear abundantly throughout the Fall. They continue bearing until freezing weather. We have tried out perhaps a dozen varieties of the Everbearing, but have found the Champion to be the best. It is true that the Mastodon is a larger Berry, and many consider it the best, but we have not found it so. Our chief fault with the Mastodon is that it does not bear enough.

Klondyke. An old favorite. Early sweet.

Premier. The most popular commercial variety. Good size, excellent quality.

Dunlap. Very large, good quality, midseason.

Aroma. The most extensively planted commercial variety. Midseason.

Glen Mary. Midseason, large commercial variety.

Big Joe. Extra large. Midseason.

Gandy. An old favorite. Late.

Champion. Most popular Everbearing.

Mastodon. New everbearing. Largest grown.

Which would- You choose?

Ornamentals

Ornamental and Landscape Department. From our selection of choice Shrubs, Evergreens, Shade Trees, Roses, Tubercous Plants and Perennials, a selection can be made suitable for any requirement.

Landscape Service. We employ a professional landscape architect and a number of practical well trained field men whose services are always available for our customers. If we can be of any service to you do not hesitate to call on us.

Our standard grade of stock is grown chiefly for the larger landscape developments and is not to be compared to light Mail Order Grades often quoted. Even the smaller stock we list as "Mail Order Grade" is well rooted, branched, and much of it will give immediate effect.

Make use of our Landscape Department. We have established it for your benefit and it is at your command. If too far away for one of our landscape men to see you, send in measurements of your grounds and a photo of the house for suggestions.

Shrubs

Abelia. Evergreen from 4 to 6 ft. in height. Pink blossoms all summer. Mail Order Size, 60c. 18-24 in., \$1.00 each; \$10.00 per doz. 2-3 ft., \$1.50 each; \$15.00 per doz.

Almond Flowering. Dwarf shrub. Pink blossoms in March. \$1.50 each; \$15.00 per doz.

Althea (Rose of Sharon). Old-time favorite shrub. Pink, white and red. Mail Order Size, 35c. 2-3 ft., 75c each; \$8.00 per doz.

Aralia. Slender, gracefully arching branches. White flowers. Excellent for rocky slopes. 2-3 ft., \$1.00 each; \$10.00 per doz.

Barberry New Red. Same as the Thunbergii except foliage, which is a blood red. The most popular shrub that has been introduced in the past ten years. 12-18 in., \$1.25 each; \$12.00 per doz. 18-24 in., \$1.50 each; \$15.00 per doz.

Asparagus

Pedigreed Washington. There are a lot of different varieties. Some nurserymen list as many as half a dozen, but the Pedigreed Washington has been proven to be far superior to the old varieties, so why plant the others? We list only the Pedigreed Washington.

1-yr. field grown roots: 75c per doz.; \$2.50 per 100; \$15.00 per 1000.

2-yr.: \$1.00 per doz.; \$3.50 per 100; \$20.00 per 1000.

English Walnut

A nut that promises to become profitable and to be grown commercially in Virginia and adjoining States. It has been found by actual test that English Walnuts can be as successfully grown in this section as anywhere in the United States. The trees thrive well and the nuts are of equally as good a quality as those grown elsewhere. A tree ten miles from us has been known to produce as much as \$80.00 worth of nuts in one season. We offer the Virginia thin shell. 18-24 in. Mail Order Size, \$1.25 each; \$12.00 doz.; \$75.00 per 100.

2-3 ft., \$1.50 each; \$15.00 doz.; \$95.00 per 100.

Pecans

Stuart. Paper shell, large. Bears young, makes good yield. 3-4 ft., \$1.75 each; \$18.00 per doz.

Seedling from Stuart. 4-6 ft., \$1.50 each; \$15.00 per doz.

Barberry Purple. 2-3 ft., 75c each; \$8.00 per doz.

Barberry Thunbergii. Mail Order Size, 35c each; \$3.00 per doz. 18-24 in., 50c each; \$5.00 per doz. 2-3 ft., 75c each; \$8.00 per doz. 3-4 ft., \$1.00 each; \$10.00 per doz.

Beauty Bush. New Shrub from China. Long arching branches covered in the Spring with clusters of small, tubular pink flowers. Most popular new shrub introduced in a number of years. 18-24 in., \$1.50 each.

Bush Honeysuckle. Fragrant white or pink flowers that appear with the first robin. Mail Order Size, 35c. 2-3 ft., 75c each; \$8.00 per doz. 3-4 ft., \$1.00 each; \$10.00 per doz.

Butterfly Bush (Summer Lilac). Purple blooms resembling Lilac. Blossoms first season. Excellent as cut flower. Very fragrant. Blooms from June to November. Mail Order Size, 35c. 2-3 ft., 75c each; \$8.00 per doz.

Privet Hedge

A Privet Hedge is much cheaper than a fence and is much more attractive. It not only serves as a fence, but as an ornament.

Our Privet Hedge is not to be compared with smaller, lighter grades of the same height, which are often offered the trade. Our Privet has been grown in the field, cultivated in Nursery rows, and the two-year stock has been cut back to the ground after one year's growth, which caused it to develop more branches and a better root system. Therefore, our plants will make a beautiful hedge much quicker than small plants of equal height.

CALIFORNIA PRIVET

The most extensively planted Privet Hedge. Too well known to make a description necessary.

Evergreens

All Coniferous Evergreens are Dug with a Ball of Earth and Wrapped in Burlap

Seldom do we attempt an Ornamental planting without the use of Evergreens. They are especially useful, as they are beautiful the entire year, and are more appreciated during the winter, when Deciduous Shrubs are barren. Our Standard Sizes of Evergreens are carefully dug with balls of earth, securely packed and sent out fresh. Being handled in this way and having the advantage of the fibrous root system which our soil produces, our Evergreens will give excellent results.

For the benefit of those who are not in position to make a complete Evergreen Planting of the Standard Sizes, we are offering what we term as "Mail Order Sizes." Evergreens furnished under this grade are beautiful little specimens and will make a good showing at the time of delivery.

Chinese Elm

Graceful as the Birch. Rapid growing as the Poplar. Beautiful as the Maple.

Recently introduced by U. S. Department of Agriculture and pronounced by the Department in Yearbook of 1926:

"As a shade, windbreak and avenue tree the Chinese Elm has proved to be the most successful introduction of this kind thus far attempted.

"It is a rapid grower, with slender, almost wiry branches. It is one of the first trees to leaf out in the spring and the last to shed its leaves in the fall. Throughout the long season the leaves remain a beautiful green and are remarkably free from the usual plant diseases and insect injuries so common in many of the other Elms."

5-6 ft., \$1.75 each; \$18.00 per doz.; \$135.00 per 100.
6-8 ft., \$2.50 each; \$25.00 per doz.; \$175.00 per 100.

Roots and Tubers

Cannas

Great improvement has been made in Cannas in the last few years; not only in color and size of bloom, but the extension of the blooming period. New varieties now blossom throughout the fall instead of a couple weeks, as the old varieties did.

- King Humbert Yellow**. Yellow dotted flowers. Vigorous bloomer.
- President**. Red-crimson. Most popular red. Vigorous. Free bloomer.
- Unlike the old varieties, the Improved Varieties bloom throughout the fall. Every garden should have Canna beds.

Gladiolus

The Gladiolus continues to be our most popular cut flower. No flower is more easily grown. Gladiolus bloom within ten weeks from time of planting and continue to bloom through late summer and fall. They should be planted at intervals of about two weeks apart. By making your first planting the first of May and continuing planting at intervals of every two weeks until the middle of July, you can have blossoms from middle of July until frost.

By all means plant some of the Autumn Queen. This odd variety should be planted in early spring in order to get best results. Unlike most of the other varieties, the Autumn Queen will bloom from the first of September until frost. The spikes will often be 3 to 4 feet long.

In Gladiolus we offer the following:

- | | | |
|------------------------------|------|------|
| A good mixed assortment..... | Doz. | 100 |
| Named varieties..... | 1.25 | 8.00 |

For your convenience we list below some of the choice named varieties:
